AD HOC IAC COMMITTEE (WATCH)

Tentatively approved duties of the Working Group
and/or Watch Committee

- D-6
- a. develop and operate on a current and continuing basis the Watch Committee Intelligence Plan for systematizing, energizing, and coordinating through appropriate channels the world-wide collection by US agencies of indications intelligence pertinent to the Watch Committee mission.
 - b. arrange through the IAC or any member thereof for exploitation of every domestic and foreign source of indications intelligence.
 - c. arrange with the IAC agencies for a systematic screening of all intelligence information received by them by any means for the purpose of promptly extracting, evaluating where appropriate, and forwarding to the Indications Center all information which may contain indications of Soviet/Communist intentions as set forth in C,2 above.
 - d. continuously screen all pertinent intelligence information received by all IAC agencies for indications relating to the Watch Committee mission.
 - e. develop promptly an early evaluation and analysis of each indication in coordination with the intelligence agency or agencies best qualified to deal with the field of intelligence to which the indication belongs.
 - f. maintain in readily usable form a complete and integrated file of all pertinent available indications intelligence.
 - g. maintain wall maps, charts and other display material which will most effectively assist in illustrating and interpreting graphically the current and cumulative indications.
 - h. coordinate with the individual members of the Watch Committee the selection of indications for consideration by the Committee in regular and special meetings.
 - i. prepare material for use by the Watch Committee to assist in its deliberations and the formulation of its conclusions.
